

Allegato A PROGETTO Scienza senza Frontiere – Brasile

Name of the doctoral program

Ambiente e Territorio – Indirizzo in Pianificazione Territoriale e Sviluppo Locale

Cotutelle X

Title of the research activity

Two broad thematic areas can be highlighted:

- Spatial planning
- Local and territorial development

Short description of the research activity

Attention will be paid to the research activities that will be proposed by candidates. Proposals will be evaluated taking into account their consistency as regards the theoretical approach and their appropriate scheduling so to fully profit of the Programs activities. Below broad research fields are proposed, but it is expected that the candidates will provide a solid research project to be discussed with the tutors in order to positively evaluate the application.

Proposal for research activities in “spatial planning” could be about:

- analysis of different spatial planning contexts and issues for a comparative research;
- innovative tools for spatial planning in the scope of multi-level governance

Proposal for research activities in “Local and territorial development” could be about:

- analysis of local/territorial specific conditions to promote/strengthen development policies;
- analysis of territorial governance processes.

Scientific responsible (name, surname, role)

Scientific responsible for the evaluation of the proposals will be a local commission, composed by 3 members of the PhD board and coordinated by Prof. Marco Santangelo (marco.santangelo@polito.it).

Number of vacancies for XXVIII cycle (begin January 2013)

2

Specific requirements (experiences, skills)

Having attended a Masters course in concerned disciplines.

Website of the research group (if any)
