1. Grading Mechanism
Course grades are awarded to the students preferably based on their relative performance in the course. Grading is usually carried out on the basis of normal distribution curve using statistical methods with B as the class average.
The grade points assigned to the letter grades are indicated as under:

Letter Grade	Grade Points
A	4.00
A ⁺	3.70
B ⁺	3.30
B	3.00
B ⁻	2.70
C ⁺	2.30
C ⁻	2.00
C	1.70
D	1.00
F	0.00

2. Semester Grade Point Average (SGPA)
The semester grade point average (SGPA) is calculated by multiplying the grade points earned in a course with the number of credit hours of that course, taking the sum of such products for each course taken in that semester and finally dividing the result by the total number of credit hours registered in that semester.

3. Cumulative Grade Point Average (CGPA)
The cumulative GPA (CGPA) is calculated similarly (as that for SGPA) for all the courses taken in all the semesters of the degree programme.

4. Medium Of Instruction
Medium of Instruction at the University of Engineering and Technology Taxila - Pakistan is English.

5. Duration of Degree
The minimum duration of the Bachelor Degree Programme is Four (04) Academic Years.
